Dear Rick:

As we come to the end of our contractual relationship with your firm, we wanted to let you know how pleased we were with your creation of the new JAUNT website. It's chockfull of helpful information and the photos relate to each of the six counties that we serve, in addition to showing the breadth of our public transportation services. In spite of our very limited budget, you were able to produce a site that's easy to navigate (even for our customers with disabilities) and easy to maintain. We've already been able to update it as new services become available. This is a great tool to reach out to potential customers across our 2500 square mile service area.

Thanks for making all this happen.

Sincerely,

Donna Shaunesey
Executive Director
